

# GRANT PANELIST NOMINATION

The Metropolitan Nashville Arts Commission is seeking qualified Davidson County residents to serve as advisory review panelists to assist the agency's application review process. Selected panelists meet each spring to review grant application submitted to the commission. Each panel member should attend both the scheduled panel meeting and panel orientation. Panelists receive copies of grant applications in advance and are required to review them prior to the panel meeting. During the panel review, panelists are expected to score each application based on the MNAC's grant review criteria. Also, panelists are encouraged to provide additional written feedback to help organizations improve their proposed projects, programs and future applications. Lastly, the scoring, rating, and ranking of each grant application by the review panel provides a qualitative evaluation for the commission to determine funding.
